

## John A. Dobelman - Research Staff

Dr. Dobelman earned the BSEE, the Masters of Business & Public Management (MBPM, from the Jesse. H. Jones Graduate School of Administration), and Masters of Arts and Doctor of Philosophy in Statistics from Rice University, Houston, Texas. Beginning in 1981, he was Dr. W.E. (Bill) Gordon's research assistant (ionospheric radio science) in the Space Physics and Astronomy Department at Rice University until 1986, when Dr. Gordon retired.

He worked with John McGarity on some payload design, and primarily assisted Dr. Gordon's graduate students in their dissertation research by logistic, programming, experimental support. In addition he performed research and helped pull together several of Dr. Gordon's publications and presentations in the 1981-1986 timeframe.
