

## **Stanislav Sazykin — Research Staff**

After receiving his PhD from Utah State University in 2000, Stan Sazykin came to Rice, where he was a postdoc (2000-2001), Research scientist (2001-2005), and Research Faculty since 2006.

His work centers on numerical modeling of the inner magnetosphere and magnetosphere-ionosphere coupling. Together with Dick Wolf, Frank Toffoletto, Bob Spiro, and Tom Hill he develops the modern version of the Rice Convection Model.
